## Summary

Web Developer with 3.5+ years of experience working with PHP, WordPress, Shopify, Laravel, CodeIgniter and OpenCart. Experienced in developing API-based backend systems and handling service integrations.

## Experience

### Softerectors | Phase 8, Mohali
**Web Developer | 12/2023 - Present**

- Developed and maintained WordPress, Shopify, Laravel, CodeIgniter, and OpenCart-based web applications.
- Implemented Meta API integrations using WordPress and Core PHP.
- Customized Shopify stores including product filtering, Kickflip integration, custom schema-based templates/pages, and HubSpot form integration.
- Integrated Shiprocket API for shipping management within WordPress and WooCommerce.
- Customized WooCommerce extensively, including cart and checkout modifications, custom fields, dynamic pricing, payment gateway integrations, and custom shipping methods.
- Customized WordPress themes and plugins using hooks, filters, and template overrides.
- Developed Laravel-based backend APIs to support frontend systems.
- Built multi-store OpenCart setup using a single database with centralized admin management.
- Worked with libraries such as DOMPDF, jsPDF, html2canvas, Konva, Google Spreadsheet API, and Toastr etc. for advanced functionality.

### Triade Solutions | Hoshiarpur, pb
**Web Developer | 07/2022 - 11/2023**

- Plugin & Theme Development: Developed custom WordPress plugins from scratch and customized themes based on client requirements.
- WooCommerce Customization: Customized WooCommerce features including subscription and digital products. Built custom plugins to extend functionality and add unique product features.
- Built and managed a subscription-based plugin system where users could install plugins, select packages, and automatically enable/disable property listings based on active plans
- Website & Database Migration: Managed full website migrations including files and databases, domain transfers, server setup.
- Page Builders: Worked with popular WordPress page builders such as Elementor, Divi, Avada Builder, Beaver Builder, and WP Bakery.

### Excellence Technology | Phase 8, Mohali
**Web Developer Intern | 01/2022 - 06/2022**

- Built and modified website features using HTML, CSS, JavaScript, and jQuery.
- Assisted in WordPress theme customization and plugin integration, gaining hands-on experience with hooks, filters, and the WordPress environment.
- Created and modified shortcodes to implement dynamic content and custom functionality.
- Worked with MySQL database for data management, writing queries, and troubleshooting issues.
